24/7: How Cell Phones and the Internet Change the Way We Live, Work, and Play Jarice Hanson

Just as the automobile radically changed people's lives at the beginning of the 20th century, so too has the revolution in online services (including blogging, podcasting, videogaming, shopping, and social networking) and cell-phone use changed our lives at the turn of the 21st century. In addition, many other services, activities, and devices—including the Palm Pilot, the BlackBerry, the iPod, digital cameras, and cell cameras—have been made possible by the combination of these two technologies. Whereas the automobile allowed people for the first time to work in cities and live comfortably in the suburbs, extending the long commute beyond the limits previously circumscribed by public transportation, the Internet and cell phone allow us to interact with others from around the world—or a few hundred miles—from where we work or live, giving rise to the telecommuting phenomenon and allowing us to stay in touch with friends and families in the new virtual environment. As Hanson demonstrates in her new book, these technologies enable us to work and play 24/7, anytime, anywhere.

What does this mean for us as individuals and for society as a whole? What are the social implications of this technological revolution that we have witnessed in the short span of about 20 years? Do people of different generations use these technologies in the same ways, or do they adopt them to support their communication habits formed at different times of their lives? How does the illusion of control provided by these technologies affect the way we think about what is meaningful in our lives? Hanson examines the wide-ranging impact of this change. How do individuals posting their viewpoints on the Internet affect democracy? Is it possible to ever completely prevent identity theft over the Internet? How permanent is information stored on the Internet or on a hard drive? Do cell phones change the way people think about privacy or the way they communicate with others? Does email? Do videogames teach new social principles? Do cell phones and the Internet change traditional communication behaviors and attitudes? Hanson discusses these crucial issues and explores to what extent individuals do have control, and she assesses how social and governmental services are responding to (or running from) the problems posed by these new technologies.

From reader reviews:

Valerie Hemming:

Reading a publication tends to be new life style within this era globalization. With studying you can get a lot of information that will give you benefit in your life. With book everyone in this world may share their idea. Ebooks can also inspire a lot of people. A great deal of author can inspire their very own reader with their story or maybe their experience. Not only the storyplot that share in the guides. But also they write about the knowledge about something that you need example. How to get the good score toefl, or how to teach your young ones, there are many kinds of book that you can get now. The authors on earth always try to improve their skill in writing, they also doing some study before they write to their book. One of them is this 24/7: How Cell Phones and the Internet Change the Way We Live, Work, and Play.

Jonathan Head:

Reading a book to be new life style in this season; every people loves to go through a book. When you learn a book you can get a large amount of benefit. When you read books, you can improve your knowledge, due to the fact book has a lot of information in it. The information that you will get depend on what types of book that you have read. If you want to get information about your examine, you can read education books, but if you act like you want to entertain yourself look for a fiction books, this sort of us novel, comics, as well as soon. The 24/7: How Cell Phones and the Internet Change the Way We Live, Work, and Play will give you new experience in studying a book.

John Herrera:

This 24/7: How Cell Phones and the Internet Change the Way We Live, Work, and Play is new way for you who has attention to look for some information as it relief your hunger info. Getting deeper you on it getting knowledge more you know or perhaps you who still having tiny amount of digest in reading this 24/7: How Cell Phones and the Internet Change the Way We Live, Work, and Play can be the light food to suit your needs because the information inside that book is easy to get simply by anyone. These books create itself in the form that is certainly reachable by anyone, yep I mean in the e-book application form. People who think that in publication form make them feel sleepy even dizzy this reserve is the answer. So there isn't any in reading a book especially this one. You can find actually looking for. It should be here for a person. So , don't miss the idea! Just read this e-book sort for your better life as well as knowledge.

Amanda Furr:

As a college student exactly feel bored to be able to reading. If their teacher asked them to go to the library in order to make summary for some publication, they are complained. Just very little students that has reading's heart and soul or real their hobby. They just do what the teacher want, like asked to the library. They go to right now there but nothing reading very seriously. Any students feel that examining is not important, boring as well as can't see colorful photos on there. Yeah, it is to become complicated. Book is very important for

you personally. As we know that on this time, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore this 24/7: How Cell Phones and the Internet Change the Way We Live, Work, and Play can make you experience more interested to read.
