Franklin Watts Medical Library 5 Book Set: Parkinson's Disease / STDs / Depression / Tourette Syndrome / Multiple Sclerosis [5 Hardcover] Grades 5-12 Elaine Landau, Diane Yancey, Wendy Moragne, Nathan Aaseng

Franklin Watts/21st Century Medical Library 5 hardcovers. An excellent tool for those students writing reports, parents homeschooling their children, or just as a general informational tool. 1) PARKINSON'S DISEASE: Landau explains the symptoms of Parkinson's disease, from tremors and rigidity to emotional changes and speech problems, and discusses the difficulty of diagnosing it. Although its cause is not known, researchers speculate that it could be environmental, viral, or even a result of the aging process. 2) STD'S: WHAT YOU DON'T KNOW CAN HURT YOU: The volume covers chlamydia, gonorrhea, syphilis, genital herpes, HIV AIDS, and genital warts. Symptoms and medical descriptions are straightforward and easy to understand, and healthy lifestyle choices are encouraged. 3) DEPRESSION: The author discusses what it is, signs and symptoms, diagnosis and treatment, suicide and its prevention, family friends and school, and the power of self-esteem. 4) TOURETTE SYNDROME: Landau presents a look at this neurological disorder whose sufferers are prone to sudden and involuntary movements or sounds. The text makes it clear that while the cause is not known, there are medications that can help control the symptoms. 5) MULTIPLE SCLEROSIS: The Author begins with a chapter about Annette Funicello, and later mentions, among others, Lola Falana, Alan Osmond, and Richard Pryor. While students may not recognize all of these names, their stories will be of interest. The accessible text also covers symptoms, diagnosis, effects, treatments, and living with MS.
