## **From Crisis to Confidence: Macroeconomics after the Crash (Hobart Papers) Roger Koppl**

From Crisis to Confidence not only describes the process which the economy must go through before a full recovery after the financial crash, it also describes the journey that must be travelled by the discipline of economics. As economics students and other commentators question post-war macroeconomics, Roger Koppl provides some of the answers needed to understand the long slump since 2008. A theory of confidence is needed in any economic framework that is to explain one of the most important periods in modern economic history.
