**Intermediate Financial Theory (Academic Press Advanced Finance)** Jean-Pierre Danthine, John B. Donaldson

Targeting readers with backgrounds in economics, *Intermediate Financial Theory, Third Edition* includes new material on the asset pricing implications of behavioral finance perspectives, recent developments in portfolio choice, derivatives-risk neutral pricing research, and implications of the 2008 financial crisis. Each chapter concludes with questions, and for the first time a freely accessible website presents complementary and supplementary material for every chapter. Known for its rigor and intuition, *Intermediate Financial Theory* is perfect for those who need basic training in financial theory and those looking for a user-friendly introduction to advanced theory.

- Completely updated edition of classic textbook that fills a gap between MBA- and PhD-level texts
- Focuses on clear explanations of key concepts and requires limited mathematical prerequisites
- Online solutions manual available
- Updates include new structure emphasizing the distinction between the equilibrium and the arbitrage perspectives on valuation and pricing, and a new chapter on asset management for the long-term investor
