## **Expert Systems and Geographic Information Systems for Impact Assessment** John Glasson

Expert Systems and GIS for Impact Assessment discusses the potential of integrating these two well known computer technologies to help with the process of Impact Assessment. The proposition behind the work is that all three areas are potentially complementary and that mutual benefits can be gained from bringing them together in the field of planning. Following an introduction to each area, the book discusses the various ways in which GIS and Expert Systems can be applied. This book is aimed at professionals working with Environmental Impact Assessment, GIS and expert-systems professionals and students in these areas.
