GIS and Crime Mapping (Mastering GIS: Technol, Applications & Mgmt)

Spencer Chainey, Jerry Ratcliffe

GIS and Crime Mapping (Mastering GIS: Technol, Applications & Mgmt) Spencer Chainey, Jerry Ratcliffe

The growing potential of GIS for supporting policing and crime reduction is now being recognised by a broader community. GIS can be employed at different levels to support operational policing, tactical crime mapping, detection, and wider-ranging strategic analyses. With the use of GIS for crime mapping increasing, this book provides a definitive reference.

GIS and Crime Mapping provides essential information and reference material to support readers in developing and implementing crime mapping. Relevant case studies help demonstrate the key principles, concepts and applications of crime mapping.

This book combines the topics of theoretical principles, GIS, analytical techniques, data processing solutions, information sharing, problem-solving approaches, map design, and organisational structures for using crime mapping for policing and crime reduction. Delivered in an accessible style, topics are covered in a manner that underpins crime mapping use in the three broad areas of operations, tactics and strategy.

- Provides a complete start-to-finish coverage of crime mapping, including theory, scientific methodologies, analysis techniques and design principles.
- Includes a comprehensive presentation of crime mapping applications for operational, tactical and strategic purposes.
- Includes global case studies and examples to demonstrate good practice.
- Co-authored by Spencer Chainey, a leading researcher and consultant on GIS and crime mapping, and Jerry Ratcliffe, a renowned professor and former police officer.

This book is essential reading for crime analysts and other professionals working in intelligence roles in law enforcement or crime reduction, at the local, regional and national government levels. It is also an excellent reference for undergraduate and Masters students taking courses in GIS, Geomatics, Crime Mapping, Crime Science, Criminal Justice and Criminology.

From reader reviews:

Armando Ceballos:

The book GIS and Crime Mapping (Mastering GIS: Technol, Applications & Mgmt) can give more knowledge and information about everything you want. Exactly why must we leave the great thing like a book GIS and Crime Mapping (Mastering GIS: Technol, Applications & Mgmt)? A few of you have a different opinion about book. But one aim that book can give many information for us. It is absolutely appropriate. Right now, try to closer together with your book. Knowledge or info that you take for that, you could give for each other; you can share all of these. Book GIS and Crime Mapping (Mastering GIS: Technol, Applications & Mgmt) has simple shape however you know: it has great and large function for you. You can appearance the enormous world by open and read a publication. So it is very wonderful.

Donald Hamann:

In this 21st centuries, people become competitive in every single way. By being competitive currently, people have do something to make all of them survives, being in the middle of often the crowded place and notice through surrounding. One thing that sometimes many people have underestimated this for a while is reading. That's why, by reading a guide your ability to survive enhance then having chance to stand than other is high. In your case who want to start reading some sort of book, we give you this kind of GIS and Crime Mapping (Mastering GIS: Technol, Applications & Mgmt) book as basic and daily reading e-book. Why, because this book is greater than just a book.

Patricia Stewart:

Are you kind of busy person, only have 10 or even 15 minute in your day time to upgrading your mind ability or thinking skill perhaps analytical thinking? Then you are having problem with the book than can satisfy your small amount of time to read it because all this time you only find reserve that need more time to be study. GIS and Crime Mapping (Mastering GIS: Technol, Applications & Mgmt) can be your answer since it can be read by you who have those short free time problems.

Andrew Joy:

A lot of reserve has printed but it is unique. You can get it by world wide web on social media. You can choose the best book for you, science, comedian, novel, or whatever by simply searching from it. It is called of book GIS and Crime Mapping (Mastering GIS: Technol, Applications & Mgmt). You'll be able to your knowledge by it. Without making the printed book, it could add your knowledge and make you happier to read. It is most critical that, you must aware about publication. It can bring you from one place to other place.
