The Voyage Out Virginia Woolf

The Voyage Out is the first novel by Virginia Woolf.

The novel had a long and difficult gestation and was not published until 1915. It was written during a period in which Woolf was especially psychologically vulnerable. She suffered from periods of depression and at one point attempted suicide. The resultant work contained the seeds of all that would blossom in her later work: the innovative narrative style, the focus on feminine consciousness, sexuality and death.

Rachel Vinrace embarks for South America on her father's ship and is launched on a course of self-discovery in a kind of modern mythical voyage. The novel introduces Clarissa Dalloway, the central character of Woolf's later novel, Mrs Dalloway. Two of the other characters were modelled after important figures in Woolf's life.
