Ethics for Digital Journalists: Emerging Best Practices

The rapid growth of online media has led to new complications in journalism ethics and practice. While traditional ethical principles may not fundamentally change when information is disseminated online, applying them across platforms has become more challenging as new kinds of interactions develop between journalists and audiences.

In *Ethics for Digital Journalists*, Lawrie Zion and David Craig draw together the international expertise and experience of journalists and scholars who have all been part of the process of shaping best practices in digital journalism. Drawing on contemporary events and controversies like the Boston Marathon bombing and the Arab Spring, the authors examine emerging best practices in everything from transparency and verification to aggregation, collaboration, live blogging, tweeting and the challenges of digital narratives. At a time when questions of ethics and practice are challenged and subject to intense debate, this book is designed to provide students and practitioners with the insights and skills to realize their potential as professionals.
