Religion has played a role in conflict throughout history, with religious scriptures often being used to justify violence. *In Search of Solutions* evaluates the role of religion in Northern Ireland, Bosnia and Israel-Palestine. The book argues that religion has a tendency towards conflict and that peace is best guaranteed when human individuals commune directly with the divine without the mediation of organized religions. Different approaches to the reading of scriptures are introduced, drawing on post-modern theory. *In Search of Solutions* will be invaluable for the student seeking a clear overview of both the theory and the practice of religion in conflict resolution.
