The Prayers of St. Androgyne: Devotional Prose for the Disillusioned Religionist and the Secluded Secular Mind Jerome L. Loran

“Simple actions hold a gravitas of purpose when the inner life is alive.”

Athemus chases after wisdom with an irrational intensity, not understanding that wisdom is actually pursuing him. A sequence of magical narratives follows Athemus as he draws closer to what Western metaphysics dub the Real Self—a state of enlightenment and awareness of the true nature of reality.

Through Athemus’s journey, author Jerome Leo applies almost forty years of Western metaphysical studies. In doing so, he offers what most would think impossible, or at least contradictory: a practical approach to metaphysics.

Jerome deftly examines and analyzes orthodox Christian prayers and beliefs, rejecting the idea of original sin and elitist notions of a chosen people. Instead, he offers a collection of revised prayers to complement the teachings and concepts explored in his stories, encouraging a conscious participation in a universe most rationally perceived as a polytheistic monism.

Through fiction, analysis, and an intuition honed by years of study, Jerome reveals the need for agonizing periods of personal catharsis in life—events which, when we tune into deeper realities, hold great meaning and can be predicted.

Join Athemus, and find your real self.
