Water: A Primer Luna B. Leopold

Water circulates from earth to atmosphere to earth. This brief text describes the various processes that are involved in the hydrologic cycle and the natural characteristics of systems that circumscribe man's use of water. Water is viewed as not only an agent influential in shaping the earth's surface, but also as an essential and fragile resource. WATER...A PRIMER was written for use as a supplementary textbook in undergraduate courses in earth science and environmental studies.
