## **CyberSociety: Computer-Mediated Communication and Community** Steven Jones

The culture of computer and network- mediated communication is growing both in size and sophistication. Cyberspace is the new frontier where new worlds, meanings and values are developed. **CyberSociety** focuses on the construction, maintenance and mediation of community in electronic networks and computer-mediated communication. Leading scholars representing the range of disciplines involved in the study of cyberculture lay out the definitions, boundaries and approaches to the field, as they focus on the social relations that computer-mediated communication engenders.
