EPMESC VII: International Conference on Enhancement and Promotion of Computational Methods in Engineering and Science, 2-5 August 1999, Macao

EPMESC VII: International Conference on Enhancement and Promotion of Computational Methods in Engineering and Science, 2-5 August 1999, Macao

The first EPMESC Conference took place in 1985. It was during the Conference, recognising the success it had been, that the promoters decided to organise other EPMESC conferences, giving birth to a new series of international meetings devoted to computational methods in engineering.

The variety of subjects covered by the papers submitted to the 7th Conference demonstrates how much computational methods expanded and became richer in their applications to Science and Technology. New paradigms are being cultivated as non-numerical applications started to compete with the more traditional numerical ones. The scientific and technological communities to which the EPMESC Conferences used to be addressed themselves have changed.

The two-volume Proceedings that we achieved to gather represent many of the interesting developments that are taking place, not only in the Asia Pacific Region, but also in some other scientifically advanced parts of the World, and cover a vast list of subjects grouped under the following headings: Applied Mathematics; Physics and Materials Science; Solid Mechanics; Finite Element and Boundary Element Methods; Structural Analysis; Structural Dynamics and Earthquake Engineering; Structural Engineering; Reinforced Concrete; Knowledge-Based Systems; Artificial Neural Networks and Genetic Algorithms; Computer-Aided Instruction; Computer-Aided Design and Computer-Aided Engineering; Geographic Information Systems; Environmental Applications; Road Engineering; Geotechnics; Soil Mechanics; Fluid Mechanics and Hydraulics.

Two hundred and fifty one summaries were accepted, many of them with comments and restrictions, by the Programme Committee.

From these, 153 papers resulted, many of them from Portuguese and Chinese origin, that were submitted to the revision of an international panel of referees from Australia, Belgium, Brazil, China, Italy, Macao, Portugal, Switzerland, United Kingdom and United States, to which we gladly acknowledge our gratitude and appreciation.

From reader reviews:

Timmy Gallegos:

The feeling that you get from EPMESC VII: International Conference on Enhancement and Promotion of Computational Methods in Engineering and Science, 2-5 August 1999, Macao will be the more deep you excavating the information that hide within the words the more you get thinking about reading it. It does not mean that this book is hard to know but EPMESC VII: International Conference on Enhancement and Promotion of Computational Methods in Engineering and Science, 2-5 August 1999, Macao giving you buzz feeling of reading. The article writer conveys their point in specific way that can be understood through anyone who read the item because the author of this e-book is well-known enough. This particular book also makes your personal vocabulary increase well. Therefore it is easy to understand then can go along with you, both in printed or e-book style are available. We recommend you for having that EPMESC VII: International Conference on Enhancement and Promotion of Computational Methods in Engineering and Science, 2-5 August 1999, Macao instantly.

Katherine Humphrey:

Information is provisions for folks to get better life, information these days can get by anyone at everywhere. The information can be a know-how or any news even an issue. What people must be consider any time those information which is in the former life are difficult to be find than now could be taking seriously which one is acceptable to believe or which one the particular resource are convinced. If you obtain the unstable resource then you get it as your main information you will see huge disadvantage for you. All those possibilities will not happen inside you if you take EPMESC VII: International Conference on Enhancement and Promotion of Computational Methods in Engineering and Science, 2-5 August 1999, Macao as the daily resource information.

Gary Forsyth:

As we know that book is important thing to add our understanding for everything. By a reserve we can know everything we want. A book is a pair of written, printed, illustrated as well as blank sheet. Every year has been exactly added. This book EPMESC VII: International Conference on Enhancement and Promotion of Computational Methods in Engineering and Science, 2-5 August 1999, Macao was filled regarding science. Spend your spare time to add your knowledge about your scientific disciplines competence. Some people has various feel when they reading the book. If you know how big benefit of a book, you can truly feel enjoy to read a publication. In the modern era like at this point, many ways to get book that you wanted.

Williams Carter:

Reading a reserve make you to get more knowledge from the jawhorse. You can take knowledge and information coming from a book. Book is written or printed or illustrated from each source which filled update of news. In this particular modern era like right now, many ways to get information are available for a

person. From media social such as newspaper, magazines, science reserve, encyclopedia, reference book, book and comic. You can add your understanding by that book. Are you ready to spend your spare time to spread out your book? Or just seeking the EPMESC VII: International Conference on Enhancement and Promotion of Computational Methods in Engineering and Science, 2-5 August 1999, Macao when you needed it?
