Come l'ortica (Italian Edition) Cristina Romano

DSA...e pensare che non è nemmeno una malattia! E' solo una diversità neurobiologica della quale la scienza si sta occupando da troppo poco tempo. Questi disturbi specifici di apprendimento (dislessia, discalculia, disgrafia e disortografia), riguardano una buona fetta della nostra popolazione scolastica e quindi della società. Si può essere alti, biondi, di ossatura grossa ma anche...DSA! Quanti ragazzi abbandonano la scuola per intraprendere percorsi di vita sbagliati? I suicidi o le carcerazioni fanno notizia e spesso finiscono sui giornali. La parte di vita precedente, quella parte tanto dolorosa quanto silenziosa vissuta prima di fare quelle scelte sbagliate delle quali poi si occuperanno i media...no...non fa notizia, perchè non la conosce nessuno, nemmeno i genitori!
