The first novel based upon the award-winning WARMACHINE® steam-powered fantasy wargame and the world of the Iron Kingdoms® Role Playing Game is an action-packed steam-tech fantasy that combines elements of epic wartime adventure with thrilling cloak-and-dagger espionage.

The Iron Kingdoms are at war--a war fought with machine guns and magic, knights of valor, and earth shaking titans of steam and steel. And now that war may hinge entirely on nothing more than a sheaf of papers.

An alchemical formula, stolen by an ally they thought they could trust, could cost the brave soldiers of Cygnar everything. Their only hope: a cunning spy, a knight out of her element, and a frighteningly small unit of the best that Cygnar has to offer.

Arrayed against them is not only a single, devious enemy, but the combined intelligence apparatus--and possibly the full military might--of the most brutal martial power Cygnar has ever known.
