Candide

Voltaire

Candide Voltaire

A parody of eighteenth-century adventure-romance and a satire on Leibnizian optimism (“all is for the best in the best of all possible worlds”), *Candide* follows the titular hero and his tutor, Dr. Pangloss, on a series of adventures after Candide is banished by his uncle for kissing his cousin. While enduring shipwreck, earthquakes, floggings, and several brushes with death, Candide comes face to face with the realities of life and the roots of evil.

Published in 1759, *Candide* is considered one of the most important works in Western literary canon. Because of its strong criticism of the Roman Catholic Church, as well as the governments of France, Prussia, England, and Portugal, the novel was almost immediately banned in some countries. In the centuries since, *Candide* has been plagiarized, imitated, and adapted for film, television, and opera many times.

HarperPerennial Classics brings great works of literature to life in digital format, upholding the highest standards in ebook production and celebrating reading in all its forms. Look for more titles in the HarperPerennial Classics collection to build your digital library.
