**Lessons in Discovery (Cambridge Fellows Mysteries, Book 3)** Charlie Cochrane

Orlando's broken memory may break his lover's heart.

*Cambridge Fellows Mysteries, Book 3*

Cambridge, 1906.

On the very day Jonty Stewart proposes that he and Orlando Coppersmith move in together, Fate trips them up. Rather, it trips Orlando, sending him down a flight of stairs and leaving him with an injury that erases his memory. Instead of taking the next step in their relationship, they're back to square one. It's bad enough that Orlando doesn't remember being intimate with Jonty—he doesn't remember Jonty at all.

Back inside the introverted, sexually innocent shell he inhabited before he met Jonty, Orlando is faced with two puzzles. Not only does he need to recover the lost pieces of his past, he's also been tasked by the Master to solve a four-hundred-year-old murder before the end of term. The college's reputation is riding on it.

Crushed that his lover doesn't remember him, Jonty puts aside his grief to help decode old documents for clues to the murder. But a greater mystery remains—one involving the human heart.

To solve it, Orlando must hear the truth about himself—even if it means he may not fall in love with Jonty the second time around...

*Warning: Carries a three-handkerchief rating. Contains sensual m/m lovemaking and men in kilts.*
